

	Task	Assignee	Milestone / Sprint
DONE	GitHub Capabilities		
X	Registration through GitHub	Alimpon	1
X	GitHub login and user authentication	Alimpon	1
X	Research GitHub API	Alimpon	1
X	Decide if we need our own user or if we will only use github (fix models accordingly)	Alimpon	1
X	Determine how to pull repositories / files for search results	Alimpon	1
	HTML Front End		
X	Come up with initial list of templates needed	ALL	1
X	Come up with initial list of html files that describe pieces of the UI	Nora	1
X	All Static Page Templates :	Nora	1
X	Front page	Nora	1
X	Registration/login page	Nora	1
X	4 password reset pages	Nora	1
X	My Languages Stream	Nora	1
X	Watched Repo Stream	Nora	1
X	Saved File Stream	Nora	1
	View my profile	Nora	2
	View profile	Nora	2
	Edit my profile	Nora	2
X	Search	Nora	1
X	All Page-Portion HTML Written, Included in Templates :	Nora	1
X	Navbar	Nora	1
X	Repository List	Nora	1
	Database + Django Models		
X	Decide between MySQL and Postgres	Alimpon	1
X	Get DB configured	Alimpon	1
X	Document DB configuration in a shared location	Alimpon	1
X	Plan meeting to explain how to use DB to your teammates	Alimpon	1
X	Have meeting to explain how to use DB to your teammates	Alimpon	1
X	Create initial models.py	Alimpon	1
X	Come up with initial list of actions. Fill up urls.py and create stubs in views.py	ALL	1
	Develop search algorithm - returning results based on language and difficulty	Alimpon	2
X	Setup user authentication with GitHub	Alimpon	1

	Task	Assignee	Milestone / Sprint
	<b>Django "Backend" - Page Capabilities</b>		
X	<b>Comment on Repositories</b>	Divya	1
X	Action written	Divya	1
X	Template Modified	Divya	1
X	Url Configurations	Divya	1
	AJAX / JS	Nora	2
X	<b>Comment on Files</b>	Divya	1
X	Action written	Divya	1
X	Template Modified	Divya	1
X	Url Configurations	Divya	1
	AJAX / JS	Nora	2
X	<b>Endorse / Unendorse of a Comment</b>	Divya	1
X	Action written	Divya	1
X	Template Modified	Divya	1
X	Url Configurations	Divya	1
	AJAX / JS	Nora	2
	Rate a Post on Usefulness / Helpfulness related to search		
	Rate Difficulty of a Post		
	<b>Watch / Unwatch a Repository</b>	Divya	1
X	Action written	Divya	1
	Template Modified	Divya	1
	Url Configurations	Divya	1
	AJAX / JS	Nora	2
	<b>Save / Unsave Post</b>	Divya	1
X	Action written	Divya	1
	Template Modified	Divya	1
	Url Configurations	Divya	1
	AJAX / JS	Nora	
	<b>Populate Watched Repositories Stream</b>	Divya	1
	<b>Populate Saved Post Stream</b>	Divya	1
	Populate My Language Stream	Divya	2
	Populate View Profile Page		
	Populate Edit Profile Page		
	Support User Proficiency Rating Calculation		
	Repository Integration in View	Divya	2
	<b>Search Github</b>	Alimpon	2

	Task	Assignee	Milestone / Sprint
	search by language	Alimpon	2
	search by repository	Alimpon	2
	search by tag	Alimpon	2
	store search results- models and algorithm (by when comment?)	Alimpon	2
	implement search form/parse user input and display	Alimpon	2
	rate search results by difficulty and store that way	Alimpon	2
	<b>Rate User</b>	Alimpon	2
	Research criteria to rate user by	Alimpon	2
	rate by language proficiency - lines of code	Alimpon	2
	rate by amount of code/number of repos	Alimpon	2
	rate by activity on our site - number of comments, endorsements	Alimpon	2
	rate by stars/watches on github	Alimpon	2
	store rate results - models and algorithm	Alimpon	2
